

Where do we intervene?

Consultations are conducted in the truck which is parked near-by accomodation centre for women. Please check with centre's workers to find out our upcoming dates. Or call us for an appointment with the social worker or the nurse directly at the hospital.

Free Mobile Consultation without appointment

We offer medical consultations mainly focus on prevention and gynecology for women without access to social security.

Thanks to the collaboration with the so-

cial worker, we can help you know your rights and integrate the health system (documents issues, housing, social security, medical bills...)

The nurse answers your health related questions, advices you in your wellbeing processes and helps, if needed, with your healthcare circuit.

Talk, learn, share

Where am I?

Pregnancy?

I have a problem...

Birth control?

Infections?

Violences?

My Rights?

Addictions?

Menopause?
